Module 7: Portfolio and Review

Mission 7.1 - Creating your Portfolio

In a real work environment, other people will also need to be able to read your work. So it's important you know how to present your information in an effective portfolio.

Watch the video below on creating your portfolio:

You can download the Data Analysis Portfolio Example below:

📎 Data Analysis Portfolio Example.pdf 205.5KB

Task

You will now be tasked with creating a portfolio to display your work, and this document will

be reviewed by your peers from this cohort.

The primary report should contain each of the following, done correctly:

- Professional Background
- Table of Contents
- A project description with the business problem clearly defined
- Data Design
- Three pivot tables and/or charts
- Two Tableau visualisations
- Analysis on the business problem
- Conclusion

The Capstone Report report should also contain the following, done correctly

- Professional Background
- A project description with the business problem clearly defined
- Data Design
- At least one pivot table and/or charts
- At least 1 Tableau visualisation
- Analysis on the business problem
- Conclusion

For your privacy, we ask that when you submit your portfolio to EntryLevel, it does not contain your name, email address, personal address or phone number.

When the program is done, if you like, you can add that information to your personal copy of the portfolio.

Create your Portfolio, and submit it as ONE single PDF Document below.

The deadline to submit your portfolio is **the ~~13th~~ 19th of August. If you miss this deadline you will not receive a completion certificate**

Mission 7.2 - Data Analyst Quiz

*Required

What is your email address? (Make sure this is correct so that we can track your submission) *

Your answer

Why do Data Analysts use Tableau? *

○ To access, read, manipulate, and analyze the data stored in a database.

○ To simplify and visualise raw data

○ To organize raw data into a readable format, and customize fields and functions that make calculations for you.

○ To automate the Data Analysis flow and provide deeper, faster, and more comprehensive insights.

What is Data Cleaning? *

Mission 7.3 - Review a Peer's Portfolio

We will be in touch after the portfolio submission deadline with a portfolio for you to review.

To wrap up the course, please give the portfolio a 1-5 stars. All reviews are completely anonymous.

You need to review at least one portfolio in order to finish the course and obtain a completion certificate.

If you review all 3 portfolios you will be awarded a "Critical Thinker Badge"
